

PLEASE ARRIVE 15 MINUTES PRIOR TO YOUR SCHEDULED VISIT
to complete our screening process. Appointments will not be extended due to delays.

Welcome Back to Loretto!

As the safety and security of our residents and staff remains paramount, it is imperative that you follow our guidelines while we ease restrictions on visitation. Please note these requirements are subject to change based on new Department of Health mandates.

As you prepare to visit your loved one, here's what you should expect:

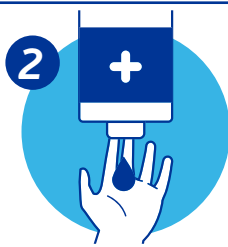

- All visitors must abide by our infection control protocols, including proper hand washing, hand sanitizing, screening upon arrival and wearing masks at all times. Anyone not wearing a mask will not be allowed to enter.
- All visitors will be screened prior to entry. This includes providing identification, answering screening questions about recent exposure or positive tests, taking your temperature, and wearing an issued ID badge that is required during visitation.
- Visits must be scheduled in advance during the specified times listed for each day
- Only two family members can visit once per week, and one must be 18 or older.
- Visits will be held in common areas with a time limit.
- Residents will be provided with masks to wear during family visits.
- No open food or drink or pets will be permitted during visitation.
- Many facilities are preparing outdoor spaces to enable you to take your loved ones outside, weather depending.
- Proper social distancing will be practiced at all times.
- All common visitation areas will be completely sanitized between family visits.
