

I have benefited from Loretto's family of care for more than 15 years. I started at Fahey Rehab, after I got out of the hospital. At the time, I was unable to move anything but my neck. Within 18 months, I was walking with a walker... a small miracle. My husband and I chose assisted living at Sedgwick Heights because it was the only available place where couples could share a room. After 53 years together, we would not be separated. Sadly, he has since passed away but my family is as much a part of my Sedgwick home as I am.

Sedgwick Heights is special because of the staff and the concern the management has for all of us. I have my independence, my friends and my family.
