

When we needed to find a safe, caring place for my active Mom, we chose The Heritage. The private apartments allow for a sense of independence while all the community activities have kept her busy and stimulated.

Change can be very difficult, but the wonderful staff at The Heritage assisted us with the transition to her new "home". Now we enjoy visits with Mom and see her smiling, laughing and making lots of new friends. It has been a perfect fit!

The staff is wonderful, like a big extended family. They're not working just for the pay, because they put their heart into their job. They're knowledgeable and experienced in dealing with elders, trained to care for those with dementia symptoms in a dignified and respectful manner.

Since my father moved to The Heritage, he is thriving. He enjoys living again.

The Heritage Assisted Living

Specializing in Alzheimer's and Dementia Care

The Heritage offers two residential programs based on the level of assistance needed.

Individuals affected by Alzheimer's and dementia need extra care and support for their safety and well-being and family members need peace of mind. Our staff works closely with the family to learn more about their loved one's history and needs. The Heritage provides programming that builds on an individual's strengths and our activities are designed to stimulate residents physically and mentally, as well as provide opportunities for residents to socialize and enjoy each other's company. Safety is a primary concern at The Heritage. We conduct safety checks every two hours, 24 hours a day. Our experience has shown that most residents thrive here, and family members feel a real sense of relief knowing that their loved ones are receiving exactly the care they need; care that enables them to live their lives to the fullest.
